

How to form PLURAL NOUNS

Main idea: change the word's ending based on its final letter

OKHÓ → *ÓKHА*

-o / -e → change to **-a / -я**

-a / -я → change to **-ы / -и**

a consonant → add **-ы / -и**

After **г, к, х, ж, ч, ш, щ** you don't use **-ы**, but **-и**:

KHÍZа → *KHÍZи*

Some common words are irregular:

челове́к → *лю́ди*
